THE NEW **24V** STANDARD

1 ADDITIONAL CELL = SUPERIOR PERFORMANCES

+20% **+33%**
POWER * **RUNTIME ***

*  **24V** compared to **18V** products

*  **48V** compared to **2x18V** products

WHY greenworks®

POWER TOOL ADVANTAGE

Accomplish More
Greenworks 24V Lithium-Ion batteries provide 20% more power & 33% more runtime*.

18V (Ryobi) & 20V = 5 Cells
24V = 6 Cells

*(compared to 18V Lithium-Ion batteries).

HIGH POWER

**24V
POWERALL™
CORE**

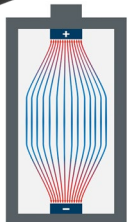

HP Batteries

In 2026, all our 24V are HP batteries delivering higher output to power the most demanding motors

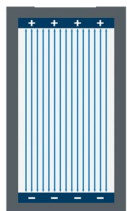

2026 : TABLESS Batteries

- -45% heat
- Less resistance
- Higher output
- 70% more runtime
- 3X longer life
- Faster charging

TAB DESIGN

TABLESS DESIGN

USB-C

POWERALL™ Battery

USB-C port for fast charging. Can also be used as a dynamic power station. Use to charge your cell phone, laptop, tablet, and other personal electronics.

World's Widest 24V Assortment

One battery system powers all your needs including power tools, mowers, snow throwers, chainsaws, string trimmers, blowers, sprayers, pressure washers, fans, lights, speakers, inverters, inflaters, vacuums, scooters, and so much more...

Bi-DIRECTIONAL USB-C PORT BATTERY

AI MOWBOT

Connect, Map, and Mow

Connect

Install the charging station, download the app, install the RTK reference antenna (for RTK models) and connect to the mower.

Map

Choose Auto Map or personalize cutting areas, no-go zones, and transport paths with ease. Each map can have multiple zones, and multiple maps can be created.

Mow

Once the map has been created the mower will start straight away, with full control over all settings, as well as the ability to adjust cutting areas, zones and paths at any time.

AI MOWBOT

(Available Q1 2026)

Target Lawn: Standard Residential Lots

Mows up to 1200m².

Signature Features:

1. Vision Only or RTKVision™ Guided – the choice is yours!

Vision Only offers auto mapping with an almost immediate start up. RTKVision™ offers a more precise navigation with systematic cutting and zone management without magnetic strips.

2. Front Wheel Traction & Oversized Tires

With front wheel drive in combination with extra large **250mm** diameter front tires, the **AI MOWBOT** will conquer uneven terrain and climb slopes up to **45% or 24°**.

3. Maintains All Grass Types

Whether you have winter grasses or summer grasses in your garden, **AI MOWBOT** can maintain it all. It cuts golf course quality **20mm** precision to **90mm** rough cuts. Cutting height is manually adjusted on the Vision Only platform and electronically on select RTKVision™ models.

4. Mow At Night

A brilliant headlight allows the **AI MOWBOT** to mow in low light settings or even at night. Marvel at a newly cut lawn while enjoying morning coffee.
